## **DETAILED ACTION**

### ***Claims***

Claims 12-15 are amended. Claims 16-23 are added.

### ***Election/Restrictions***

Applicant's election without traverse of invention I and species A, G, J, and M in the reply filed on 02 May 2008 is acknowledged.

Claims 1-11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 02 May 2008.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to independent claim 12 drawn to an optical component device, most all of the limitations are method step limitations. The Office considers such a claim indefinite

Art Unit: 2871

because there are almost no device structure limitations; the limitations are mostly drawn to a different invention in a different inventive category (drawn to a method).

Applicant must predominantly claim the structure of the device.

As to dependent claims 13-23, they are directly or indirectly dependent upon indefinite claim 12.

Examiner will permit shift of election to invention II, drawn to a method of making a device comprising liquid crystal material, should Applicant so desire. Subsequent to such a shift of election, dependent device claims may be withdrawn and may be rejoined should the method claims eventually become allowable. However, for similar 112 second paragraph reasons, Applicant may not substantially rely on device structure limitations in method of making claims.
